

# Over Seven Decades of Excellence

## Benefit

Traceability.  
Each fastener has its own quality control number tracing it all the way back to the steel mill.

## Benefit

The highest torque/clamping force available in the entire industry.

## Benefit

Roll threading, not thread cutting, for stronger, more precise radiused root and run-out threads for increased fatigue life.

## Benefit

Technical support for those tough questions for design and applications engineers — over the phone or on-site.

## Benefit

The most complete line of fasteners in the business in both inch and metric sizes.

# Holo-Krome Quality
